The name "Angel's Trumpet" is the common name of Brugmansia, which has large, pendulous, trumpet-shaped flowers. The curves of the "Angel's Trumpet" shapes were designed according to the fluent curves of the flower. It reflects the peaceful moment of morning dew gliding through the petals. The curves of the lounge chair were inspired by the colorful flowers. They not only attract bees but people to relax by the pool side, balcony or in the spring garden.
Bring the Garden to a sunny place, add some fresh white hydrangeas and hanging wisteria, have a picnic on the Garden with pleasant flower flavor, here comes a wonderful afternoon…

Chloe means “green” in Greek. Chloe Garden is inspired by the growth of green buds and is a perfect combination of structure and strength.

Papillon means butterfly in French, because it outlines a delicate butterfly-shaped frame at the seat back, creating an interesting interplay of light and shade, as if the butterfly were flying around.

The seat and frame of Papillon are two separated parts, they can be in contrast or similar color to provide different senses of beauty. Putting a Papillon in the room, the space will light up with no effort.

Zigozago is offered in a color combination inspired by the hues of lagoons all over the world, and the covers are matched tone-on-tone. The shell, with its recognizable and captivating profile, is inspired by nature’s geometry, by leaves in particular, and it’s characterized by veining and ribbing which confer resistance to the material while lightening it. The peculiar metal structure, painted in the same colors as the shell, is placed underneath the seat in the front and enclosed in the back, at the height of the sharp bend which marks the separation between the seat and the seatback.
Milan is a design capital. The Milan chair is a modern design filled with energy, passion and fashion. With the openwork design, it creates the beauty of light and shade.
